 Portfolio  radheydetroja@gmail.com  radhey-detroja  DetrojaRadhey  LeetCode

Experience

Odoo India Pvt. Ltd., Gandhinagar

SDE Intern

- Engineered enhancements to Odoo's Discuss module spanning messaging, meeting scheduling, and notifications, shipping 7+ upstream contributions with 4 merged into Odoo core.
- Designed business logic, automated test suites, and version-upgrade scripts using Python and PostgreSQL, ensuring data integrity and backward compatibility across releases.
- Collaborated on internal tooling built with React.js and Node.js to speed up feature validation and streamline the development workflow.

Technical Skills

Languages: JavaScript, TypeScript, Python

Frontend: React.js, Next.js, Redux, Tailwind CSS

Backend: Node.js, Express.js, Flask, FastAPI, REST APIs

Databases: SQL, MongoDB, PostgreSQL, Supabase, SQLite, Redis

Tools & Platforms: Git, Docker, Prisma, N8N, LangChain, Vercel

Achievements

- Ranked Top 5 among 1200+ teams at the Odoo x Mindbend Hackathon 2025, hosted at NIT.
- Open Source Contribution to the Scribbler and Odoo community repositories, including designing a CSV upload & analysis notebook for Scribbler JS Notebook.

Projects

Roadside Assistance Platform

 [Link](#)

- Engineered a location-aware platform delivering real-time medical and mechanical support through a peer assistance network and a companion Chrome extension.
- Built a RAG-powered assistant that instantly surfaces solutions for predefined issues, letting users resolve minor problems on their own without waiting for mechanical help.
- Optimized spatial queries with a MongoDB 2dsphere index and an IoT-based emergency trigger, enabling sub-second retrieval of nearby help providers and autonomous accident alerts.

Multiplayer Chess Game

 [Link](#)

- Architected a real-time online chess platform using Socket.io, supporting seamless multiplayer match-making and gameplay.
- Shipped social features including friend invites, game history, and challenge-based rematches to boost user retention.
- Integrated Google OAuth for authentication and managed synchronized game state, reducing latency.

Google Form Auto Answering Extension

- Built a Chrome extension leveraging the Gemini API to autofill form answers based on question context, with OCR to interpret image-based questions at over 60-70% accuracy.
- Used it personally on a regular basis across varied form formats, sustaining an average 75-80% success rate in real-world testing.

Education

Charotar University of Science and Technology (Charusat), Gujarat

B.Tech in Computer Engineering

GPA: 8.17/10

May 2026
